

# How to activate a SIM card

Activating a single or non-consecutive SIM cards can be achieved through the SIAM portal.

To activate a large amount of SIM cards with consecutive ICCIDs see: [How to bulk activate SIM cards](#).

It is found at SIMS > Activate.

Note: You cannot activate two different types of SIM cards at the same time, for example AnyNet and EE. You cannot activate two different tariffs at the same time.

**SIM Activation- Step 1 of 2**

1 Enter the SIM card numbers you wish to activate.

2 Please note that pressing the 'Activate All SIMs' button will activate all SIMs on the page. If you want to activate a limited number of the SIMs, please tick the checkbox next to each one that you want to activate and press the 'Activate Selected SIMs' button.

3 You will then be taken to step 2 where you can choose the package and other information for the SIMs.

You have 2 AnyNET sims available to activate. [Click here to load those sims.](#)

(Please note that this will remove any SIMs you have listed below.)

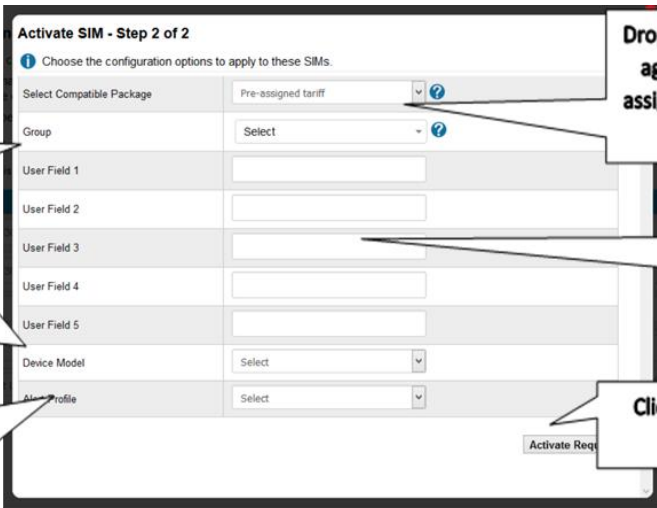

ICCID	Friendly Name	IMEI
<input checked="" type="checkbox"/> 8944538523006861424	Now test SIM	
<input type="checkbox"/> 8944538523009421515		

Buttons:

**Annotations:**

- Enter ICCIDs, the unique identifying number for the SIM in this column.**
- Checkboxes, used to select rows in the table.**
- Enter Friendly Names, these appear on bills and are used for identification later.**
- Click Activate Selected SIMs to go to Step 2 (below) for the checked SIMs.**
- Click Activate All SIMs to go to Step 2 (below) for all the ICCIDs entered.**
- If the account has any pre-provisioned SIM cards available this function loads the correct ICCIDs.**
- Enter IMEI number of the device, this does NOT lock the SIM card to the device, it is only for easy identification later.**

If successful, step 2 will appear:

**Activate SIM - Step 2 of 2**

Choose the configuration options to apply to these SIMs.

Select Compatible Package: Pre-assigned tariff
